StrongMix A light weight concrete providing more efficient strength to weight ratio. StrongMix provides a higher fire rated concrete structure along with lowering sound transmission . StrongMix also benefits from energy conservation as it provides higher R-Values and lowers thermal transfer for improved insulation properties. StrongMix, a waterproof pre colored solid finish for a fraction of the cost of other like finish materials. StrongMix can be molded into Brick, Stone, Siding or Stucco Finish in any color. Just add water and our X-5 to a premixed bag and apply.
